General information about Namib Desert Edge Self Catering Units

1. Cellphone reception and WhatsApp; some Internet some of the time. You will need your own data.
2. Units are equipped for for two persons only.
3. Nights are cold and even in Summer, weather can change rapidly – take along some warm clothes and warm jackets even in Summer.
4. No wood available and no wood may be collected. Please provide own wood for BBQ.
5. Headlight or torch can be handy.
6. No 220 power; no plug outlets.
7. Please do not disturb nature, stick to existing roads when driving or walking.
8. No pets, quadbikes or loud music are allowed.

There is:

1. Amazing views, but some wind to be expected.
2. BBQ Grids and crockery/cutlery as per list for 2 persons per unit only.
3. Thermogenic cooler; no freezer.
4. Beds for 2 persons per unit and all bedding and towels for two persons.
5. 12V (Solar) power for all lights and USB socket for charging phones.
6. Indoor Bucket showers with warm water on tap in bathroom from outdoor bio-fuel geyser.
7. Satellite movement! Clear skies at night provides excellent stargazing as well as satellite movement just after sundown towards an easterly direction.

YOUR MOVEMENT on the farm:

You may:

1. Drive on the route from Mele Farmstall to Namib Desert Edge Self Catering Units as per directions only.
2. Drive or walk on any road inside the Blou Hemel Gate. Please consider other residents by not going close to their homesteads (nothing else constructed at time of printing).
3. Walk/hike the Zebra Hiking Trail starting from Namib Desert Edge.
4. Enquire from the Farm whether there are other drives/activities they may offer.

Guests use the facilities on own risk. The units are not child friendly for young children as there are open staircases and off the ground verandahs. Units and location not wheelchair friendly.

Enjoy the tranquility, remoteness and we wish you a relaxing, pleasant stay.

HELP US CONSERVE

WATER

Our chalets are located in an extremely ecologically sensitive area with very low rainfall. Our water is found nearly 10 kilometers away and is pumped up the mountain by a solar pump and stored in a larger reservoir that you passed along the way. From there, it is downhill all the way to our location and our storage tank. It is pure artesian water and completely safe for human consumption.

Due to the scarcity of water, we implemented a bucket shower system to reduce water consumption and our impact on underground water reserves. The system is explained in our guest information folder.

As the facility also functions on a water-friendly system which takes grey water to the trees you find on site, we request that you do not wash any chemicals down the washbasin, shower or kitchen sink.

No facilities for the washing of clothes are provided. Please request laundry services from the camp management.

TOILETS

As the toilets are linked to a septic tank which operates with bacteria, it is also essential that no chemicals or sanitary items be flushed down the toilets. Doing so will affect the efficiency of the system. Please use the bags and bin provided for sanitary items.

OFF-GRID ELECTRICITY

Being 15 km away from grid-electricity led us to go completely off-grid in our electricity supply.

This resulted in a highly efficient solar powered 12V system. We cannot however support hair dryers, electrical kettles or clothes irons. We do supply a 12 V cooler for cold goods and an LP gas stove with kettle for boiling water as well as USB charging points.

LINEN

You will find that our linen is washed and dried and rarely ironed in order to limit our consumption of electricity at our laundry. Your sheets might therefore look more crumpled and straight from the washing line, but its dried in good Namibian sun! We aim to take care of the environment by not washing towels every day. Guests with longer stays can arrange for fresh towels and/or linen with the camp management.

SMOKING

We cannot, by Law, allow anyone to smoke any tobacco products in these establishments/chalets. Smoking is only allowed at the BBQ drum in front of your unit. Please dispose of your cigarette butt in the BBQ drum instead of flicking it into the grass as the burning butt could cause a field fire which could have devastating effects.

COLLECTION OF WOOD

No collection of firewood is allowed in any area of Farm Alberta, Blou Hemel or Namib Desert Edge. Please provide your own firewood for making a BBQ or just a friendly fire.

ANIMALS & WILDLIFE

We trust that you will see our resident Klipspringers, Martial Eagles and Hartmann's Mountain Zebras. Do not leave food or waste outside as it might attract unwanted residents such as baboons.

ZEBRA HIKING TRAIL

The circle route trail was mostly set out along existing mountain zebra trails and we now find their tracks on our trail again. You will see Zebra baths (circular dust holes) in some areas. You might also find that honey badgers have dug fresh holes into the trail in their search for plant roots. The look-out points offer a different view of the Gamsberg and the valleys surrounding the Gaub-river beyond.

Please take enough water and hike early morning and late afternoon in Summer. No fires or sleeping over on the trail is allowed. Please note that you walk the trail on your own risk. Avid hikers should complete it in two hours, but you can of course choose to turn around and backtrack to the start or end point.
